

Innovating the Future of RV POWER

WF-5220 INVERTER SERIES | 2000-WATT

Intelligent Features and TECHNOLOGY

Reliability. Vertically integrated, WFCO has total supply chain control, ensuring quality materials, parts and processes at each stage. Components are quality tested at critical manufacturing stages resulting in zero faults at the final 4-hour burn-in test, helping keep warranty claims below 1%. All models are UL® and cUL® listed and FCC Class B compliant.

WFCO's 2000-watt WF-5220 Inverter Series delivers outstanding performance. The internal transfer system automatically allows the AC input to bypass the inverter when the inverter is connected to an AC power source. Other essential features include pure sine wave output, providing the hi-tech filtering needed for premium electronics and refrigerators, plus an easy hi-pot testing design that allows hi-potting output circuits through the inverter.

With over a decade of inverter manufacturing, WFCO knows what is essential. Reliability, clean signal, easy installation, and intelligent power management make the WF-5220 Inverter Series the best choice in RV inverters.
